To place an order, please advise:

1. Model number.
2. Product to be handled such as air, oil, water, etc.
3. Maximum operating pressure in P.S.I.
4. Maximum operating temperature in degrees Fahrenheit.
5. Hose inside and outside diameters and length.
6. Installation height, especially if more than 16 feet.

7. Desired guide arm position by adding one of the suffixes to the model number. Example: 5635 OLP SW for side wind. Refer to the guide arm chart for guide arm suffix codes.

Additional Considerations:

A flexible connection between the reel and the source of supply is required to prevent possible misalignment and binding. Non-flexible connections will void the warranty. The

pressure rating of inlet hose must be equal or greater than the rating of the reel.

Accessories

Reels ordered with hose and bumper are assembled complete and ready to install. Order bumpers separately for reels without hose.
