

Jetter Reels

Large Frame Series 2415

New Product Announcement

DESCRIPTION

Reelcraft's large frame jetter reels are designed for various high pressure applications that require the added strength and stability of a heavy duty frame and spool assembly.

RELATED PRODUCTS

Reelcraft offers a full line of large frame industrial hose, cord and cable reels to serve a wide variety of applications.

Motor Options

Motor mounting options include right/ left, front/back, or direct drive. Choose from hydraulic, pneumatic, or 12V DC or 24V DC electric motor.

Direct Drive

Reel features direct drive option that effectively eliminates the need for chain/sprocket and the maintenance associated with them. Other drive types are available upon request.

Heavy Duty Construction

Frame is constructed of industrial grade tubular steel. The spool features a welded wrapper and 3/16" spun heads.

Low Maintenance

Dual ball bearing design makes rewind smooth and even. Bearings are self-aligning and lubricated, requiring little maintenance.

Corrosion Resistance

Parts have been individually powder coated prior to assembly for maximum corrosion resistance.

For additional information, please contact Reelcraft's Engineered Products Group

We will build to your specs

Re-Enforced Motor Mount

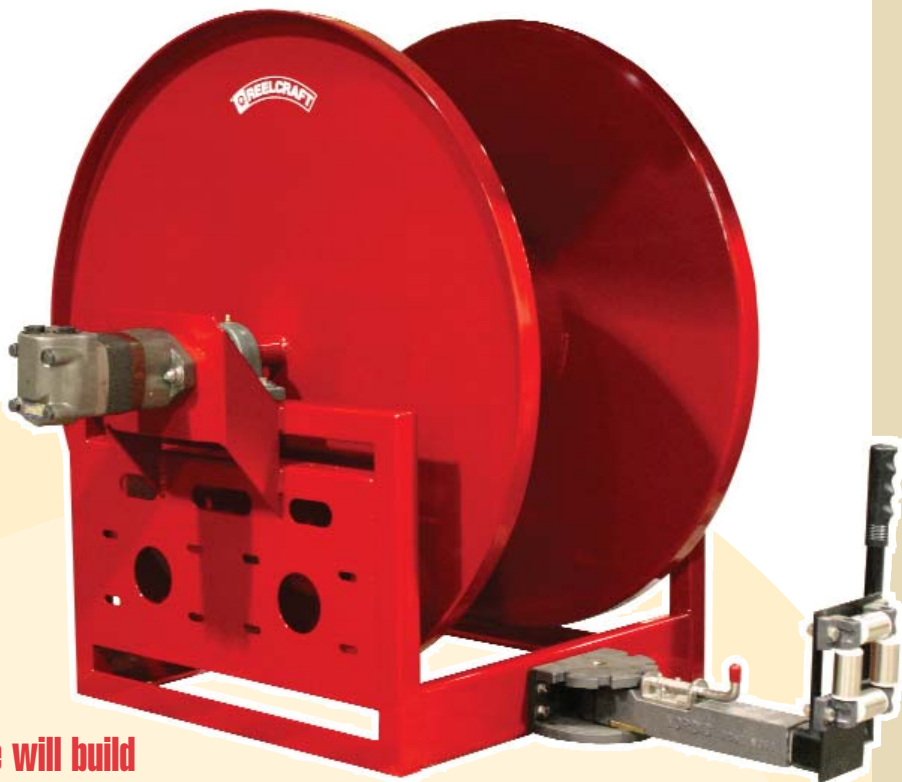

Additional supports have been added for strength.

4-way Guide Assembly

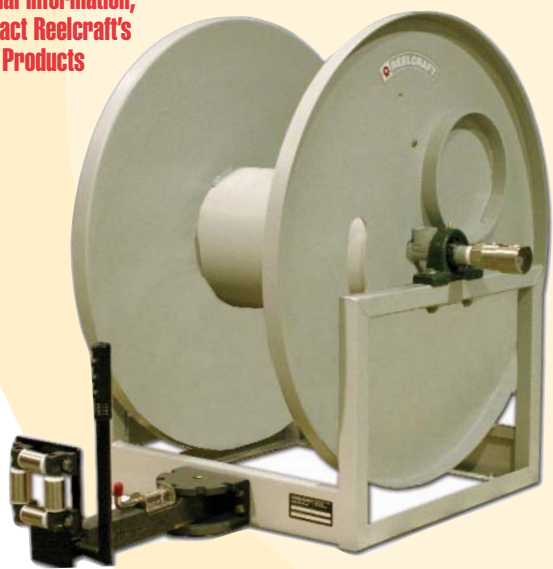

Heavy duty cast guide assembly aides in guiding hose back onto spool evenly. Assembly arm can be positioned out of the way and locked when reel is not in use.

Ease of Use

Hose pinch points have been reduced by incorporating an external hose mounting point so the hose makes a smooth transition onto the spool.

SPECIFICATIONS

- ✓ We will build to your specifications
- ✓ Pressures range from 3,000 to 10,000 psi
- ✓ Holds up to 1000' of 1" I.D. hose
- ✓ Temperature range 22°F to 225°F. (Other temperatures available upon request.)
- ✓ Flange sizes 30" and 34"
- ✓ Carbon steel fluid path
- ✓ 3/16" steel spun heads
- ✓ Dual self-aligning, self lubricating ball bearings
- ✓ Individual powder coat finish
- ✓ Fully welded spool assembly
- ✓ Motor mounts front/back, right/left
- ✓ Red or grey powder coat is standard, but other finishes are available
