

# Stainless Steel Cord Reels

LS 5000 Series

## New Product Announcement

### DESCRIPTION

Stainless cord reels are better suited in applications where corrosion or sanitation are a concern. Heavy gauge 304L stainless provides an excellent finish and superior corrosion resistance. Reels include 4-5' pigtail, multi-positional guide arm and cord stop. Models listed are for indoor, non-weather-tight applications only.

### BENEFITS

- **Medical Grade (LS5415 123 3M Only)**- stainless steel is easy to sanitize/clean and these reels feature a medical grade, grey cord.
- **Quiet** - These reels utilize a cam latching system, making them much quieter and smoother than other reels in their class.
- **Compact** - A space saving design makes them ideal for minimum space requirements.
- **Safety (SP908012-A1 Only)** - Reels feature an automatic on/off switch on the reel and spot light suitable for class 1 & 2 hazardous areas (device only).
- **Superior Strength** - A robotically welded base, engineered structural supports and high-grade industrial stainless steel combine to give this reel superior strength and stability.
