New Product Announcement | Series AV

Air Vend Hose Reels
Series AV

The Series AV from Reelcraft is designed for air service. The air vend reels are compact and able to handle 25' of 1/4" hose. It is small enough to be incorporated into air service stations or inside cabinets on trucks. Reels are supplied with a tougher one wire braid hose to resist abrasion and crushing.

Benefits

- **Durable** - Reel is made from heavy gauge industrial steel and hose is abrasion/crush resistant one wire braid.
- **Corrosion resistant** - Components are individually powder coated prior to assembly for a nearly impervious uniform finish.
- **Ease of use** - External guard eliminates the possibility of hose "jumping" off the spool during rewind (AV4425 models only).
- **Serviceable** - External swivel design offers easy access to service-able parts (AV4425 models only).
- **Extra protection** - Feature a steel enclosure that offers an additional level of protection for the hose from potentially harmful foreign debris. Reel is designed such that removing the cover on either side will allow access to the majority of serviceable parts (AV5425 ELP).
