Spring Retractable Low Profile Reels

Air/Water/Oil/Vacuum Recovery - 3/4", 1" I.D.

Series SD10000 hose reels are designed to facilitate larger diameter 3/4" and 1" hose up to 50 ft. They feature a high quality external drive spring and a heavy gauge all-bolted together frame. The containerized external drive spring assembly offers easier handling during maintenance. This is the most compact reel in its class, making it ideal for mounting in truck cabinets or other areas where space is limited.

Features
- Reel features extreme space saving design, ideal for applications with minimal space constraints.
- Reel is built with high quality industrial grade components for superior strength and design.
