Heavy Duty Cord and Cable Storage Reels

Hand Crank, Bevel Crank & Motor Driven

Keep long lengths of expensive electrical cord off the ground and out of harm’s way with Reelcraft's expanded Series 30000 line, which includes cable storage reels and live power cord. The reels are designed to handle long lengths of 10/3, 12/3 and 16/3 cable.

Reelcraft's Series 30000 storage reels and live power cord reels are constructed of heavy gauge steel and are assembled with vibration-proof, self-locking fasteners to ensure assembly integrity. They undergo a five-stage cleaning process and are individually powder-coated for the highest quality, corrosion-resistant paint adhesion. Suited for indoor, non-weathertight applications only.

Cord/Cable Storage Reels

Cord and cable storage reels are used for storage, unwinding, and winding of conductive cord/cable. The reel is not intended to be live and the power source must be disconnected while reeling/de-reeling to avoid twisting the wires. Series 30000 cable storage reels are available in hand crank only.

Live Power Cord Reels

Live power cord reels have collector rings that allow the reel to wind/unwind the cord/cable with live current without twisting the wires. Live reels offer the advantage of using a reel as an effective piece of operating equipment rather than a simple device for the storage of cable or cord. Series 30000 live power cord reels are available in direct hand crank, bevel gear crank or electric motor-driven rewind.

LC312 103  Hand Crank  AWG 10 5.211 3 200

LE312 123 12D  Motor Driven**  AWG 12 3.131 3 200

LE312 103 12D  Motor Driven**  AWG 10 5.211 3 200

NOTE: Cord must be fully unspooled before use. Actual fill capacities vary with cord O.D. and jacket type. Consult manufacturer for applications requiring cord types other than SO, SOW, or SJT. Reel suited for indoor, non-weathertight applications only. *Power source must be disconnected while reeling/de-reeling. Through shaft on cable storage reels facilitates cable sizes up to .969” O.D. for other sizes, consult manufacturer. **All motor driven models are 12 V DC non-explosion proof. Other motor options available upon request.
