**Complete Welding Series | Series TW / STW / BA**

### Features
- Designed to improve safety in the work area with an increase in productivity and efficiency
- Full flow shaft swivels
- Independent dual swivel body manufactured from aluminum and hard-coated for wear resistance ensures positive separation of gases due to its unique design
- Double-sealed, O-rings prevent leakage
- Swivel body and inlet are both permanently identified with machined grooves on the acetylene side to assure proper installation
- Durable abrasion and corrosion resistant baked-on red powder-coated finish
- Reel frame, spool and drum are fabricated of heavy gauge steel

**Lighter weight for hose lengths up to 50’**

**STW3450 OLP**
*See page 21 for additional details.

**Dual swivel is an exclusive Reelcraft design**
Independent dual swivel body manufactured from aluminum and hard coated for wear resistance. Assures positive separation of gases due to its unique design.

Double-sealed, special molded O-rings prevent leakage. Swivel body and inlet are both permanently identified with machined grooves on the acetylene side to assure proper installation. Available with TW5000 and TW7000 series reels.

**“T” Grade Fuel Gas Reels**
“T” grade hose reels are used for a wide variety of gases such as mapp gas, propane gas, natural gas and fuel gases. When ordering any welding hose reels you must specify the type of gas being used. To order “T” grade reels, add a suffix “T” to the TW models.
Example - TW5425 OLPT.
