Welding Cable Reels  
Series CEA / WC

Hand Crank / Spring Retractable Cable Welding Reels  
Series CEA / WC

- Designed to improve safety in the work area with an increase in efficiency and productivity
- Cable reels have a current path through a continuous 400 or 700 AMP, 90 V DC (maximum) rated enclosed slip ring
- Keeps work area and vehicles better organized, resulting in better space utilization
- Stores cable when not in use, eliminating tangled, kinked welding cables
- Welding cable reels store work lead or electrode lead, up to #4/0, safely and effectively when not in use.
- Each lead requires a separate reel. When welding also refer to ANSI/Asc Z 49.1
- Maintains proper bend radius of cables, providing longer cable life

Caution: If cable reels are to be used for extended periods of time, unwind all cable from reel to prevent heat build-up. For indoor non-weather tight applications only.
