## **Rewind Motors**

Part No.	Specification			
Electric Motors				
S260409	Reversible type, 12 V DC 1/3 HP			
260450	Reversible type, 24 V DC 1/4 HP			
Explosion Proof Electric Motors (Class 1 Group D Division 1)				
S260430	Reversible type, single phase, explosion proof 115 V AC 0.40 HP.			
S260626	24 V DC 2/3 HP. Electric motor reversible type. Explosion proof.			
S260583	12 V DC 2/3 HP. Electric motor reversible type. Explosion proof.			
Air Motors				
260428	4 AM delivers up to 11/2 HP, 1/4" NPTF (F) inlet			
260429	6 AM delivers up to 4 HP, 1/2" NPTF (F) inlet			
Hydraulic Motor				
370066	1021 RPM, 668 lb-in, 2400 psi, 2.2 in <sup>3</sup> intermittent 1800 psi continuous			

## **Additional Accessories**

Part No.	Specification	Use with Motor			
<b>Control Val</b>	Control Valves				
260454	Pneumatic on/off flow control valve assembly, 1/4" NPTF (F) inlet for 4 AM compressed air motors. Recommend using a filter, regulator, and lubricator with compressed air motors.	260428			
260455	Same as above with 3/8" NPTF (F) inlet and outlet for 6 AM motors.	260429			
Circuit Breaker					
S260422	40 AMP, manual reset button must be pressed firmly to reset	S260409 260450			
Starting Solenoid					
S260426	12 V DC for activation of motor	S260409 S260583			
370018	24 V DC for activation of motor	260450 S260626			
Mounting Bracket					
260532	Combination for circuit breaker, solenoid and starting switch				

## **Operating Switches and Accessories**

Push Button Switch   S260430	uperating Switches and Accessories				
S600870         115/230 V AC, 10 AMP fuse         S260430           600811         12/24 V DC, up to 1/3 HP, breaker and relay         S260409 260450           S600808         600811 switch with bracket, 12/24 V DC         S260409 260450           600869         12/24 V DC, up to 2/3 HP         S260626 S260583           260424         Momentary contact with rubber cap, 12/24 V DC, non-explosion proof         Any DC motor           260425         Momentary contact, class 1 group D, 115/230 V AC, May also be used with solenoid for 12 or 24 V DC.         Any explosion proof motor           Speed Control Switch         S260430         Any DC motor           600871         115/230 V AC, 10 AMP         S260430           600866         12/24 V DC         Any DC motor           Push Button Switch with Speed Control         S260430           600872         115/230 V AC, 10 AMP fuse, adjustable speed control         S260430           600873         115/230 V AC, 10 AMP fuse, forward/reverse adjustable speed control         S260430           600867         DC, 25 AMP, up to 1/3 HP         S260409           Junction Box         Any caplosics	Part No.	Specification	Use with Motor
